FiiConnect

The solution the students need.

User Flow:

Landing Page

It starts by asking the student/ teacher to log in or to sign up. Without an account, the app can not be accessed.

Home Page

After logging into an account, the user will be redirected to the home page.

FiiConnect Chats

	Monday	Tuesday	Wednesday	Thursday	Friday

12-14			HCI - c	RPA - s	
14-16		CN - c			
16-18	GCGC - c	CN - s	HCI - s		ACTN - s
18-20	GCGC - s				ACTN - s

Important Announcements

Please, read carefully through the following.

Lorem ipsum dolor sit amet, consectetur adipiscing elit. Sed erat.

Lorem ipsum dolor sit amet, consectetur adipiscing elit. Aenean porta odio vitae molestie dignissim. In pretium purus sodales lorem tristique.

Lorem ipsum dolor sit amet, consectetur adipiscing elit. Sed erat.

Reminders

Upcoming exams:
- Only 1 day left until ACTN exam.
- Only 3 days left until RPA exam.

Payments: you have 30 days left to pay the school tax.

Add your reminders here.

On this page, we have three components:
- ➔ the timetable of each student/teacher
  - ◆ the students are able to change their timetable as long as the teacher in charge approves it
- ➔ Important announcements
  - ◆ here the secretariat can post important announcements with links to the official sites (UAIC, Fii UAIC, etc) or files
  - ◆ announcements such as the repartition of scholarships, taxed places, cancellation of activity etc.
- ➔ reminders
  - ◆ some will be automated: such as a payment that must be done or an upcoming exam
  - ◆ some will be added by the student depending on his/her need

Chat

There is a possibility of chatting:

There are three options for chatting:
- ➔ with individual students
- ➔ with teachers
- ➔ on groups created by them or on class groups created by the administrator

The three options will be staying in place, and when selected will be highlighted. They are mutually exclusive.

Profile

It is split into two parts.

The first side will contain information about the user (student/teacher) and some possible actions (making payments) and requests to the secretariat.

The second side will show the stats of the student:
➔ marks of each subject
➔ what payments they have to make
➔ and payments already made

The students have to choose the semester they want to see the status of. The default semester will be the first one.
